## Friction And Gravity Review Reinforce Answers

**forces, friction & gravity packet - ljhs team army blog** - forces, friction & gravity packet write answers on your own paper 1. a student is riding a bike and applies the brakes. which most helps the bike to stop? a. friction b. gravity c. heat d. momentum 2. chang jumps rope. no matter how high he jumps, he still returns to the ground. what force pulls him back to the ground? **friction and gravity - university of wisconsin-madison** - the students will demonstrate and apply their knowledge of gravity by constructing a reverse marble run. the main idea is to teach students how friction is a force that opposes motion; in this case the motion is caused by **forces: tension, gravity, & friction - uncg** - forces: tension, gravity, & friction uncg-p&a-phy211-l page 2 4. make a force vs. time graph using a piece of string to hang the mass. start with a 50g mass, then change to a 100g, 150g, 200g mass every few seconds (i.e., you may need to make **friction and gravity worksheet - westerville city schools** - friction worksheet 1. in the picture below, explain why the bear fell. use friction to explain your answer. 2. how does surface type (roughness) affect friction? 3. discuss the relationship between the size and weight of an object and the amount of friction that is present 4. **force, friction & gravity notes - merryhillschool** - gravity • the force that pulls object towards each other. • law of universal gravity states that gravity acts between all objects in the universe, meaning any two objects in the universe attract each other. • two factors affect gravity: mass & distance • remember mass is the measure of the amount of matter in an object. **section 2 friction and gravity key terms** - section 2 friction and gravity ... friction and gravity both act on the sled. friction when a sled moves across snow, the bottom of the sled rubs against the surface of the snow. in the same way, the skin of a firefighter's hands rubs against the polished metal pole during the slide down **friction and gravity web quest - springtown isd** - friction and gravity web quest web site #1: science monster: gravity click here to visit site#1 read over the information on the web site and answer the following questions. 1. what is gravity? 2. what holds our moon in its orbit? 3. what is mass? 4. what is weight? 5. the moon's gravity is \_\_\_\_\_ as strong as the earths. lunar lander game **lecture 8: two forces - gravity and friction** - gravity and friction are important. note that these laws are based on exper-iment, as all the laws of physics are. gravity and weight in physics, the weight of an object is  $w = mg$  and it is due to the force of gravity. the mks unit for weight (and the unit of any force) is the newton **friction and gravity - riverton street charter school ...** - friction and gravity (pages 340-348) friction (pages 341-343) key concept: the strength of the force of friction depends on two factors: how hard the surfaces push together and the types of surfaces involved. • friction is a force caused by two objects rubbing together. friction acts in the opposite direction of motion. **forces: gravity, inertia and friction - cpb-us-e1.wpmucdn** - forces: gravity, inertia and friction s8p3: students will investigate the relationship between force, mass, and the motion of objects. b. demonstrate the effect of balanced and unbalanced forces on an object in terms of gravity, inertia and friction. **friction and gravity - waynesboro area middle school** - friction and gravity this section describes the effects of friction on surfaces that rub on each other. it also describes how gravity acts between objects in the universe. use target reading skills friction and gravity are both forces that affect motion. as you read the section, **reading/notetaking guide friction, gravity, and elastic forces** - friction, gravity, and elastic forces (pp. 380-388) this section describes the effects of friction on surfaces that rub on each other. it also describes how gravity acts between objects in the universe. use target reading skills friction and gravity are both forces that affect motion. as you read the section, **friction and gravity - pcs.k12.mi** - friction and gravity are both forces that affect motion. as you read the section, compare and contrast friction and gravity by completing the graphic organizer. friction 1. is the following sentence true or false? when two surfaces rub, the irregularities of one surface get caught on those of the other surface. ... **newton's laws and friction - gears eds** - newton's laws and friction friction is a doubled edge sword description this lesson introduces gears users to three related concepts, these are: 1.) the nature of forces 2.) newton's laws of motion 3.) the force of friction. forces act on objects causing them to move, speed up, slow down and stop. forces can be thought
